LinkedIn: <https://www.linkedin.com/in/atharva-tambat-063393294/>

Objective:

To pursue a challenging career and be a part of a progressive organization that gives a scope to enhance my knowledge and utilizing my skills towards the growth of the organization.

Professional Summary

- Web Development Fundamentals
- Frontend Development
- JavaScript Programming
- User Interface Design
- Responsive Web Design

Technical Skills:

Frontend Technologies:

- ❖ HTML5
- ❖ CSS3
- ❖ JavaScript (ES6+)
- ❖ Bootstrap
- ❖ jQuery
- ❖ Responsive Web Design
- ❖ Version Control (Git)

Web Development Tools :

- ❖ Visual Studio Code
- ❖ Chrome DevTools
- ❖ Figma (UI/UX Design)

Additional Skills:

- Problem-Solving
- Attention to detail
- Time Management
- Collaboration
- Strong Communication

Projects:

1. Personal Portfolio Website
 - Designed and developed a responsive personal website showcasing my project and skills using HTML, CSS, and JavaScript.
 - Implemented smooth transitions and animations to enhance user experience.
2. Weather App
 - Developed a weather application that fetches data from an API using JavaScript's Fetch API.
 - Designed a user-friendly interface to display weather information based on user input.
3. Task Manager App
 - Built a task management application using React.js, incorporating components and state management.
 - Implemented features like adding, editing, and deleting tasks.
4. Tic-Tac-Toe Game
 - Developed a classic Tic-Tac-Toe game using HTML, CSS, and JavaScript.
 - Implemented game logic to allow two players to take turns, with a win-detection mechanism.
 - Added a user-friendly interface with visual feedback for game outcomes.
5. Movie Website (Responsive)
 - Designed and built a responsive movie website using HTML, CSS, and JavaScript.
 - Key features include:
 - Dynamic loading of movie data from API (e.g., IMDb or The Movie Database).
 - User-friendly search functionality to filter movies by title, genre, or release year.
 - Detailed movie information pages with cast, ratings, and trailers.
 - Mobile-responsive design for seamless browsing on various devices.
6. Spotify Clone (React.js)
 - Developed a Spotify clone web application using React.js, mimicking key features of the official Spotify platform.
 - Implemented the following functionalities:
 - User authentication and authorization using Firebase.
 - Integration with Spotify web API to fetch and display user playlists, tracks, and album data.
 - Responsive design for optimal user experience on desktop and mobile devices.
 - Real-time audio playback with play, pause, and skip controls.
 - Playlist creation and management capabilities.

Internship :

- **Frontend Development Intern**

Company- Apical Innovations

City- Mumbai Maharashtra

March 2023 – May 2023

- Assisted in developing and maintaining the company's website by updating content and resolving frontend issues.
- Collaborated with design team to implement UI/UX improvements and enhancements.
- Gained experience in working with version control systems like Git.
